The Dying Year. BY B. C. C.

The cold white snow is on the earth --

The cold wind, on the soa, And blithetful bells ring sleigh-ride mirth But bring no cheer to me. I love not nuture bound in ice; I love her warm and free ; While held in Winter's crystal vice, She had no charm for me. The leaping rill, transfixed by frost, Bill, frozen in its bed, Is only fee-the charm is last-

I dread the Winter, coming fast-I shudder when the northern blast Comes bust'ling o'er the lea. To see the earth shut out from vlow, -

The RILL lies etack and dead,

Where green robed blessings lately grow.

And rich fruits had their birth.

To see the grand old forest now,

Disorbed and gray and bare.

When late the green leaves clothed each bough · And twig, with wend'rous care ; The cold, black hills, and joylers plains, Bo lately od'rous fair, (Neath blendly suns and gentle rains,)

And hear the winds among the trees, Now wailing low, now sharp, As if some spirit touched the keys Of mourning nature's harp, To me, is sad. I-seem to hear The last despairing sigh Of nature's weary, heary year, Alas ! lain down to die,

Tea-Party at Aurora.

An excellent and well attended Tea-Parly took place at Amora, on New Year's Day in the Wesleyan Methodist Church. The edibles, as usual for Aurora, were first-rate,and the whole arrangements altogether creditable to the parties who, had the management thereof. The large Church was comfortably filled,; and the result, in a financial point of tien, highly satisfactory - between 870 and 380 having been realized.

· After refreshments lad been served, Rer, Mr. McFadden, Chairman of the District took the chair and called the assembly to order. A flyon of that scining was then sung; after which, speeches were made by Revs. Mesers. Potts, Huater, Saunders, Goldanith, AMsworth, and Mr. T. Nixon. ### Newmarket Election.

The election of Municipal Councillors for this Villago is over, and resulted in the return of the whole of the People's Ticket. As we stated previous to the election, we mittook the people of Newmarket, if they did not resent the insult that had been offered thom, and vindicate their rights. By the return of the People's Ticket the electors have given a precedent that office-holders must not abuse the confidence reposed in them, or treat with contempt their avowedly expressed wither. And we may also add, that had i not been for the threatening attitude assumed and determined position taken by the Rov. Mr. Wardy and a few of his followers, to strong an opposition to Mr. Wallis-a man generally respected on a neighbor-would not have been given.

Another result of this election is-the men returned are all in favor of devoting the Reserve Fund to common echool education -very futly concluding that men who would devote their public funds to "pins giving it to some public purpose, a fire-engine, of contention, and the platform agreed to by and accides" were not the men to represent hall, or semething of that sort, all would be them, or have the handling of their money. And while two of the old Council may take consolation in the fact that the majority of the lowest candidate on the people's ticket was but trifling; yet when we take into consideration the almost super-human efforts made to provent his election in particularthe villainous misstatements made-the deceptions practiced-and collusions resorted to, his success was a complete triumph.

The election was not decided so much for men, as certain great principles, -and the parties who went prolling about the village endeavoring to gain sympathy and make votes by stating they had been cherocterized law; but they knew its fate. His other acts be prepared to maintain, though a Solon him-Doughfaces, now plainly perceive the situation in which they are held by Protestants generally. If the Roman Catholics had the time before the election, those opposed to the Peoples' Ticket ridiculed the facts then givon; but the result proves that our statement was quite correct. The total votes polled were 151-two gentlemen assessed have re-1857. We shall not pretend to enter upon a moved, while five did not vote, - making of total of 159. We stated there were about 34 Catholic votes, -- and this was the exact

Now that the election is over, we do not care to boast further than to record our satisfaction at the result. As far as we are concerned, we shall endeavor to watch the octions of the men elected this year, just as closely as we did the old Council. If we Grammar School, which may not be conceive them to be right, all will be well: but if they step uside from their promises, or endeavor to serve private or personal misrepresentations that had been made. Mr. Wallis said he had again been proposed as a candidate for Municipal honors. The Council last year worked barmoniously until after the Reserve Question came up. It was a high female school to be rituated on the west side of Main-street. This he did not believe the people were generaly in favor of; and it had been referred back to decide today. If the Fund was devoted as proposed only a part of the people got a share; but by benefitted. .The Municipal elections are all the rage

the whole city is in force, and a serere contest has taken place. The candidates for the Mayorally are Adam Wilson, William II. Boulton, and John George Bowes. Wilson was brought forward on what was called the Municipal Reform Ticket, formed for the purpose of reforming existing munici pol abuses. This ticket, though professing no politics, supporting po pationality, has been supported strongly by the whole reform party and the clear grits, -George Brown and his party taking a great interest in the election Mr. Bowes, formerly Mayor; and the hero of the Ten Thousand Care, depended chiefly on the support of the Roman Catholics; and Mr. Boulton, the beloved of the Orange Body, and cause to the sepeal of the navigation laws, and the family compact, and the conferentives praying that ships of non-reciprocity coonfrienlooked to them for his diction; Mr. Wilson, be placed as nearly as possible on the same with a character of unblimished integrity, bas received the votes, not only of his party, but placed in those countries. of all the respectable part of the community. and on the first day had a majority of 400 over the other candidates, numbering double their united votes ; to-day, his majority increased to 1011; bring 224 over the combined votes, and he would have been declared triumphant had not a disgusting row taken place in St. Patrick's Ward, always renowned for such disturbances. The poll was closed at the suggestion of some persons of the Cap. servative ticket, who, being defeated, thus evinced their disappointment. To-morrow, therefore, this poll, according to the Act, hours in all. The whole Reform Ticket. Mayor, Alderman, and Councilmen are, with fint two exceptions, successful, and they are undoubtedly the very best men who could year is indeed improved. Not a cabinan or carter was employed, and every thing went off -with the above exception-with an unexampled calm an order. In politics, there is a slight stir at present

It seems that Mr. Sicotte, the only respectablefrom in the Ministry, has resigned his office in disgnet; on: I that the test question on which ! the Government stand or fall, is to be as to the Seat of Government, and the upholding of Jand. the Queen's decision. Trouble is abead! Why does not the Ministry take up the subject of Grand Federal Union, as we must come to it eventually? It will be impossible for the House to never upon a Seat of Government sittle in Upper or Lower Canada.

Money seems to be more pleatiful, and the times are not getting any worse. The markets are as I flows : Prime wheat brings 5: 94 to Gs 4d per bushel; spring wheat 4s Gd to 5s 2d; barley 3s 6d to 3r 9d; peas 3s 4d to 3s 8d; rye 3s 7d to 3s 9d; cats 2s 6d to

To the Editor of the New Eta. Dean Ste,-In looking over your valuable and interesting journal of last week's issue, I o Elector of the Fourth Word of King," solicit- lis at hand. It is from a logh source that icing the privilege of offering a few remarks in ! regard to the fortherming Municipal Election. With your permission, I would ask the appoin

unity to effer the following reply: Your confe pondent proceeds by stating, that | England. Mr. George Hughes, al Brownsville, has represented the Courth Ward in the Township Council, for many years, with the exception of the present, he might almost have added the year 1852, when said Ward was represented and in the Township Council, by Mr. Gresham Proctor. Your conespondent also states, that a a false report was put in checulation, accusing Mr. Hughes of having money in his hands belonging to the Mon cipality, and refused to pay over, the falsity of which has been proved, he says, by the decision of the Judges in Term, also, from the evidence of the present Reeve, and other credible witnesses. Mr. Hoghes proved that he owed the Township nothing, and that the same witnesses proved that the Treasmer was a defaulter in the amount of rom \$100 to EED.

Now, Mr. Editor, with regard to the false teport of which your informant speaks, the report was not false but positively true. It is not true that Mr. Hughes proved that he owed the Township nothing, the fact is, that it was proved to the satisfaction of the Court, that Mr. Hughe had not paid the money, in which the pair was brought to resover, and a verdict rendered by the jury accordingly.

Your corresponded also assetts that it was proved by the same witnesses, that I, as Treasurer, was a defaulter to the Towiship. Mr Phillips, in giving his evinence, stated that such was the fact, and, in order to show Mr. Phillips how much his evidence, in that case, amounts to, at the last meeting of the Township Council, I submitted my second as Treasurer with the Municipality to pure to the Confeil that Mr. Phillips evidence was not looked upon the result of this clean as af- Correct, and, instead of being a defaulter, a your informablt wishes to make me out to be the Council reported that the Township ower

And, in conclusion, I would advise the an-

DR. MORSE, the inventor of MORSE'S ROOT PILLS, has spent the greater pan of his life in travelling, having visited Emope, Asia, and Africa as well as North Americahas spent three years among the Indians of our Western country-it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD -that our strongth, health and life depends upon this vital fluid.

When the various passages becomes clogged, physical, arising from youthful excusses, infecand do not act in perfect harmony with the tion, the effects of climate, &c.; remarks on different functions of the body, the blood leoses the use of the Microscope, and the questionable its action, becomes thick, corrupted and disexped; thus causing all pams, sickness and ed by practical observation on Marriago, plain distress of every name; our strength is exhausted, our health we are deprived of, and if certain disqualifications, sules for self-treatnature is not assisted in throwing off the stagnant humors, the blood will become choked and cease to act, and thus our light of life will farever be blown out. How important then that we should keep the various passages of the ity, or more properly known as Seminal Weakness, Nervous Debility, Low Spirits, Lassitude, body free and open. And how pleasant to us that we have it in our power to put a medicing | Weakness of the Back and Limbs, Dimness of in your reach, namely, Morso's Indian Root | Vision, &c., &., incapacitating its victim for Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's Thropical and suicidal to his propensities, is ingarden, for the health and recovery of diseased | stantly arrested, and pomanently cured in from are made is a Sudorific, which opens the pores ment, when used conjuntly with medicines. of the skin, and assists Nature in throwing out the finer parts of the corruption within. The third is a Diutetic, Instrument in good order. which gives case and double strength to the Persons wishing the above useful Instrument kidneys; thus encouraged, they draw large will observe that the place, with the accomamounts of impurity from the blood, which is panying directions, securely packed, and sent then thrown out bountifully by the urinary or by express, is ton dollar water passage, and which could not have been discharged in any other way. The fourth is a Cathanic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impority which cannot pass by the outer outlets, are thus taken up and conveyed off in greater quantities by the lowels. by the bowels.

From the rhove, it is shown that Dr. Morse's Indian Root Pills not only enter the stemach, but becomes united with the blood for they but becomes united with the blood, for they don. The most inveterate cases of Venereal find way to every part, and completely rout Diseases eradicated in eight or nine days, and out and cleanse the system from all impurity, cases of a slight nature if two or three days, at and the lite of the body, which is the blood! becomes perfectly healthy; consequently al, out confinement or hindrance from business; [13] All work Warranted. #3 sickness and pain is driven from the system, also, nodes, and pains it the bones and limbs, for they cannot remain when the body becomes effectually eradicated. so pure and clear.
